

PAAP 2021

XI'AN, CHINA
December 10-12, 2021

CALL FOR PAPERS

THE 2021 12TH INTERNATIONAL SYMPOSIUM ON PARALLEL ARCHITECTURES, ALGORITHMS AND PROGRAMMING

INTRODUCTION

Following the successful PAAP'08 in Hefei, PAAP'09 in Nanning, PAAP'10 in Dalian, and PAAP'11 in Tianjin, PAAP'12 in Taipei, PAAP'14 in Beijing, PAAP'15 in Nanjing, PAAP'17 in Haikou, PAAP'18 in Taiwan, PAAP'19 in Shenzhen, the twelfth International Symposium on Parallel Architectures, Algorithms and Programming (PAAP'21) will be held in Xi'an, China, December 10-12, 2021. PAAP 2021 will provide a forum for scientists and engineers in academia and industry to present their research results and development activities in all aspects of parallel architectures, algorithms and programming techniques. We devoutly wish participants to learn the basic theory of a gradual approach, practical experimental data, new business models, and the latest academic trends from this conference.

PAAP 2021 will be organized by Xidian University. Directly under the Ministry of Education, XDU is a national key university featuring electronic and information science. According to the latest report of ESI, the engineering and computer science disciplines are listed among top 0.1% in the world, and computer science ranks 28th in the world. In the Fourth National Assessment of First-level disciplines, 3 disciplines at Xidian University have been rated A. Electronic Science and Technology is rated A+, ranking #1 nationwide, Information and Communication Engineering A, and Computer Science and Technology A-.

Honorary Chair

Guoliang Chen, Nanjing Univ of Posts & Telecom, China

General Chairs

Yintang Yang, Xidian University, China
Hong Shen, Sun Yat-Sen University, China

Organizing Chairs

Huaxi Gu, Xidian University, China
Jianfeng Zhan, Institute of Computing Technology (ICT),
Chinese Academy of Sciences (CAS), China

Program Chairs

Zhetao Li, Xiangtan University, China
Zhibo Wang, Zhejiang University, China
Yi Wang, Shenzhen University, China

Local Arrangement Chairs

Gang Shi, Xidian University, China
Xiaoshan Yu, Xidian University, China

Publicity Chairs

Shu Fu, Chongqing University, China
Jing Zhang, Xi'an University of Science and Technology, China

Publication Chair

En Shao, The Institute of Computing Technology of the
Chinese Academy of Sciences, China

Workshop & Tutorial Chairs

Ruiting Zhou, Wuhan University, China
Xiaohang Wang, The South China University of Technology, China

Program Committee

Zhanmao Cao, South China Normal University, China
Yaodong Cheng, Inst. of High Energy Phys, CAS, China
Guoliang Chen, Nanjing University of Posts and Telecommunications, China
Yawen Chen, Otago University, New Zealand
Teofilio Gonzalez, UC Santa Barbara, USA
Haibin Guan, Shanghai Jiaotong University, China
Jigang Wu, Guangdong University of Technology, China
Longkun Guo, Fuzhou University, China
Shi-Jin Horng, National Taiwan University of Science and Technology, China
Ziyi Huang, Otago University, New Zealand
Hai Jin, Huazhong University of Science and Technology, China
Kenli Li, Hunan University, China
Keqiu Li, Tianjin University, China
Yamin Li, Hosei University, Japan
Weifa Liang, Australian National University, Australia
Zhongzhi Luan, Beihang University, China
Rui Mao, Shenzhen University, China
Depei Qian, Sun Yat-sen University/Beihang University, China
Yingpeng Sang, Sun Yat-Sen University, China
Hui Tian, Griffith University, Australia
Di Wu, Sun Yat-Sen University, China
Nong Xiao, Sun Yat-sen University/Beihang University, China
Haibo Zhang, Otago University, New Zealand
Yunquan Zhang, Institute of Computing Technology, CAS, China
Cheng Zhong, Guangxi University, China
Yongfeng Dong, Hebei University of Technology, China
Yang Ming, Chang'an University, China
Xinhong Hei, Xi'an University of Technology, China
Yanping Chen, Xi'an University of Posts and Telecommunications, China
Xuehong Sun, Ningxia University, China
Jianhui Yue, Michigan Technological University, Houghton, Michigan
Quan Chen, Shanghai Jiao Tong University, China
Leonel Sousa, Universidade de Lisboa, Portugal
Therese M. Smith, Worcester Polytechnic Institute, Massachusetts, USA

TOPICS

We are inviting new and unpublished papers on, but not limited to, the following topics:

Architectures

- Multi/many-core architectures
- Interconnection networks
- Cluster, grid and cloud computing systems
- Network-on-chip architectures
- Survivable and safety-critical systems
- Ubiquitous computing systems
- Sensor, wireless and RFID systems
- Reconfigurable architectures
- Self-healing, self-protecting network systems

Algorithms

- Combinatorial and graph algorithms
- Numeric algorithms
- Task mapping and job scheduling
- Parallel/distributed databases and knowledge discovery
- High-performance scientific computing
- Resource allocation and management
- Power-aware Computing
- Secure distributed computing
- Network routing and traffic control

Parallel Programming

- Multi/many-core programming
- Parallel programming theory and models
- Formal methods and verification
- Middleware for parallel systems
- Parallel programming languages
- Parallel compilers and runtime systems
- Performance analysis, debugging and optimization
- Parallel libraries and application frameworks

Privacy and Security

- Cloud security
- Data privacy protection
- Cryptography
- Intrusion detection
- Copyright protection
- Access control
- Data provenance
- Trusted computing

High Performance Systems

- Operating systems for parallel/distributed systems
- High-performance computer arithmetic
- Memory hierarchy and caching
- Performance tuning, optimization and profiling
- Human-computer interaction in parallel/distributed systems
- Photonic and quantum computing
- Media computing in parallel/distributed systems
- Software engineering for parallel/distributed system

Big Data Processing and Deep Learning

- Mass data stream processing in clouds
- Big data models and computation theory
- Big data mining and fusion
- Dimension reduction for large data sets
- Big data placement, scheduling and optimization
- Multi-source data processing and integration
- Deep learning models
- Deep learning applications

PUBLICATION

Submissions to PAAP 2021 will be peer reviewed on the basis of technical quality, relevance to conference topics, originality, significance, clarity, etc. Accepted papers will be published in the Conference Proceedings by IEEE, which will be included into IEEE Xplore and submitted to be indexed by Ei Compendex and Scopus after the conference.

SPECIAL ISSUES

Extended versions of selected papers will be recommended to special issues of several SCI-indexed international journals including:

1. Journal of Supercomputing;
2. Concurrency and Computation;
3. Computers and Electrical Engineering;
4. Computer Science and Information Systems;
5. Journal of Computer Science and Technology;

Organized By

Publication

IMPORTANT DATES

Full paper submission due:	Sept. 30, 2021
Notification acceptance:	Oct. 30, 2021
Camera-ready paper and registration due:	Nov. 15, 2021
Conference date:	Dec. 10-12, 2021
